RE: Important Security Notification
Please read this entire letter.

Dear Sandra Kuffrey:

I'm writing to inform you of a security incident experienced by Fortra, LLC ("Fortra"), which Fortra reported occurred between January 28, 2023 and January 30, 2023 that resulted in the unauthorized disclosure of your personal information. Fortra is a cybersecurity firm that contracts with CHSPSC, LLC ("CHSPSC") to provide a secure file transfer software called GoAnywhere. CHSPSC is a professional services company that provides services to hospitals and clinics affiliated with Community Health Systems, Inc. ("CHSPSC Affiliates"). You are receiving this letter as either a current or former employee of one or more of CHSPSC Affiliates, whose personal information was affected as a result of Fortra's incident.

What Happened?

Fortra informed us it became aware of the incident the evening of January 30, 2023 and took impacted systems offline on January 31, 2023, stopping the unauthorized party's ability access the system. According to Fortra, the unauthorized party used a previously unknown vulnerability to gain access to Fortra's systems, specifically Fortra's GoAnywhere file transfer service platform, compromising sets of files throughout Fortra's platform.

CHSPSC received this information from Fortra on February 2, 2023, and immediately began its own investigation of potential impact of the Fortra incident on CHSPSC Affiliate personal information. CHSPSC has determined at this point in its investigation that your personal information was disclosed to the unauthorized party as a result of the Fortra incident.

What Information Was Involved?

The following types of data may have included personal information such as your full name and Social Security number.

What We Are Doing.

Both CHSPSC and Fortra have been in contact with law enforcement, including the Federal Bureau of Investigation ("FBI") and the Cybersecurity and Infrastructure Security Agency ("CISA"), and are supporting law enforcement's investigation.

To protect against an incident like this from reoccurring, Fortra informed us that it has deleted the unauthorized party's accounts, rebuilt the secure file transfer platform with system limitations and restrictions, and produced a patch for the software. CHSPSC has also implemented additional security measures, including immediate steps to implement measures to harden the security of CHSPSC's use of the GoAnywhere platform.
